TAKE IT... OR LEAVE IT! THE NEW HI-LO 28 FOOT TELESCOPING TRAVEL TRAILER

# HI-LO

Design innovation by HI-LO gives you new livability in a travel trailer that you can take anywhere and leave anywhere. The 2878 combines HI-LO's ease of towing with a new standard of comfort and roominess. HI-LO's biggest model is a travel trailer that's engineered for safe, stable handling on the road — that's planned for comfort and carefree living wherever you take it.

**Convenience planned kitchen** is highlighted by a four-burner range finished in brushed chrome. The oven is designed for handling full meals as well as gourmet treats. A powerful exhaust fan whisks away cooking odors and fumes.

**Double stainless steel sink** and large counter area make food preparation easy and efficient. A thirty gallon pressurized water system provides plenty of water for kitchen activities.

**Roomy living area** has drop leaf table and a handsomely upholstered swivel chair. A color coordinated interior with rich fabrics and vinyls gives you comfort and easy relaxation.

**Rear sleeping area** features a permanently made-up double bed with deluxe box spring and mattress. You have full size sleeping comfort without the fuss and bother of set-up.

**Centrally located bath** gives you a tub/shower combination. All components are made from easy care fiberglass. Large lavatory cabinet has storage space for towels and bath needs.

## HI-LO 2878 . . . DESIGNED FOR PEACE OF MIND

The HI-LO 2878 telescopes to a towing height of only 71 inches, to give you better handling and greater stability. The lowered profile means exceptional towing ease and economy, even with today's reduced horsepower automobiles.

HI-LO's telescoping design also means greater protection

when the 2878 is parked for extended periods. You can store it with the assurance that the contents are safe from theft or vandalism. And the lowered profile means greater protection from high winds and storm damage.

The HI-LO 2878 — a trailer engineered for the needs of today's living.
